# Top 50 Builder

Since 1954

All Seasons is proud to be named a Top 50 Pool Builder in the country for four straight years by Pool & Spa News, the voice of the industry. In 2013, 2014, 2015, 2016, and 2017, All Seasons has received this honor through a rigorous judging process utilizing five criteria: Revenue, Staff, Industry Involvement, Web Presence and Community Involvement.

A company is only as strong as its staff and All Seasons is proud to be ranked top 10 in this category. All Seasons scored at the top due to our high rate of employee tenure with many of our employees having been with the company for ten, fifteen, twenty or more years and because of our commitment to annual staff training and re-certification. APSP Certified Professionals adhere to strict ethical standards and commit to the highest standards of service, performance, and ethical conduct.

Community involvement has always been a huge focus of ours. We're honored to be ranked top 5 in this category. Over the past few years, we've raised thousands of dollars for foundations like Camp Quality of Illinois, Honor Flight Chicago & The Crisis Center For South Suburbia.

## About Us

Dear Prospective Client:

All Seasons Pools, Spas & Outdoor Living, Inc. is thrilled that you've taken time to talk with our specialists about building your backyard dream. We understand that finding the right company who can help you to create a backyard that will provide your family with years of memories is no small task.

Since 1954, our skilled, in-house craftsmen have been creating backyard dreams complete with unique swimming pools, soothing spas, warming fireplaces, outdoor kitchens and fire pits in custom designed outdoor living spaces. Whether entertaining or just simply relaxing with family and friends, our life-long clientele have found that our natural stone waterfalls, cascading rain descents and bubbling water effects bathed in the glow of romantic lighting provide them stress relieving sights and sounds in their very own private retreat.

Working closely with you, our APSP Certified Building Professionals, sales staff, designers, and foreman will ensure that only the highest quality construction standards are maintained while using the best equipment and materials available to our industry. Having more Certified Building Professionals than any other pool company in the Midwest gives us a vast resource of knowledge that only this type of training and experience can provide.

Your peace of mind is one of our highest priorities. Throughout the process, you will find that our staff is eager to help you with your decisions. Working together, we'll design and construct a backyard that will create life-long memories full of fun, warmth, relaxation and family, while never taking our eye off of our main goal that when your project is done, we'll have gained another member of our extended family.

We're excited to provide you with this catalog full of ideas to help you create your backyard full of dreams and memories.

Sincerely,

The Family at All Seasons Pools, Spas & Outdoor Living, Inc.

# Inground Pools & Spas

## Shotcrete Pools

**All Seasons Pools, Spas & Outdoor Living** is proud to be honored annually by the Association of Pool & Spa Professionals as one of the top Shotcrete pool builders in the Chicagoland area. Our design consultants work closely with you to create your personal backyard retreat that centers on how you like to live, work and play. Our Shotcrete pools offer a strong and seamless pool structure in virtually any shape imaginable.

Manhattan, IL - Best Of Show Award Winner

### Why Shotcrete?

Because it is highly durable and it can be created in just about any shape. Shotcrete pools use a rebar framework that is sprayed over with a concrete and sand mixture. Having a higher compressive PSI strength, our shotcrete method is stronger than a poured concrete pool, and by having no seams or "cold joints", our shotcrete pools are more watertight. Shotcrete is exceedingly durable, so swimming pools made of this substance are built to last. The versatility of shotcrete swimming pools means more than the ability to create an unlimited array of shapes, such as: suntan ledges, custom steps, bench seating, swim-up bars, built-in bar stools, and much more!

## APSP Gold Standard Award Of Excellence - Shotcrete

## Customizing Options

When designing your Shotcrete pool or spa, selections are made for the tile border around the perimeter walls and a selection for a plastered finish that will add sparkle to your water.

# Inground Pools & Spas

## Shotcrete Pools Customizing Options Sun Tanning Ledge

Swimming pools and sun go hand in hand. One of the many advantages of building a shotcrete pool is the ability to create a custom suntan ledge that everyone can lounge on while adding a little sun to their complexion.

## Custom Steps and Bench Seating

They're not just steps, they're an entrance way into your water world. Our ability to create custom steps & benching allows the pool to be more usable to your needs while adding a splash of character.

## Swim-up Bars and Built-in Bar Stools

Swim-up bars make it possible to enjoy a drink or snack without getting out of the pool. For years, they have been a popular hang out at tropical resorts and recently they have gained popularity in residential backyards.

# Inground Pools & Spas

## Fiberglass Pools

**All Seasons Pools, Spas & Outdoor Living** proudly offers San Juan Fiberglass Pools.

San Juan recognized the advantages of building fiberglass swimming pools in 1958. They built their first fiberglass swimming pool in Seattle, WA. Amazingly, that pool is still in use, is still attractive and is still durable. Since then, more than 70,000 satisfied customers from around the world have made San Juan their swimming pool company of choice. The RIO Hotel in Las Vegas, NV could have chosen any type of pool, or any manufacturer to build two pools for its spectacular high roller suites atop the hotel. They chose San Juan because only the best materials and manufacturing processes can ensure many years of trouble-free service.

*In high-stress areas, there can be as many as 15 layers of fiberglass and resin*

## Fiberglass Pool Gallery

### Key Advantages of Buying A Fiberglass Pool From All Seasons

**The Importance of Pure Vinyl Ester Resin.** San Juan Pools uses vinyl ester resin throughout the entire laminate structure. Vinyl ester resin is the toughest, most impenetrable and expensive resin used in the fiberglass pool industry today. It costs more to build a pool this tough, but experience has shown San Juan that only premium quality vinyl ester resin can ensure we are building the most durable, high quality and long lasting swimming pool available. Other fiberglass pool companies only use a skin coat of vinyl ester resin with the majority of their pools built using cheaper general purpose resins.

San Juan Pools have a minimum of five hand laid layers of fiberglass. Unlike other companies, they do not use chopped fiberglass, coring or other fillers that can make walls brittle and inhibit the flexural strength of the fiberglass. This allows their pool to expand and contract with expansive soils and freezing temperatures.

San Juan Pools is the leader in the fiberglass pool industry with numerous manufacturing facilities including seven distribution centers through out the United States and Canada.

San Juan Pools manufacture and inventory over 100 different pool & spa models. The model selection includes a series of One-piece Pool and Spa Combinations, Infinity Edge Pools, Perimeter Overflow, Therapy and Free-Form Pools.

## Vinyl Liner Pools

**All Seasons Pools, Spas & Outdoor Living** also offers customers 'smooth sailing' in a vinyl liner pool. We have a variety of patterns and 3-D designs to pick from for a lining that's soft to the touch, fits the pool like a wet suit, and is very easy to clean and maintain.

The core of the Latham vinyl pool is a wall structure made of polymer, giving you the benefit of unsurpassed strength, corrosion-proof material, and a lifetime warranty. The result is that you receive a beautiful, easy to maintain pool that is the strongest on the market and will last a lifetime. Among the distinguishing advantages of vinyl pools, they not only look great, but they are treated with fungicides and UV-inhibitors to retain their visual appeal. We will be happy to discuss the many possibilities we can offer you.

### APSP Gold Standard Award Of Excellence - Vinyl

### Why Choose a Latham Pool Builder?

The most important pool decision you will make isn't the shape, size or liner pattern. Without a doubt, nothing influences your satisfaction with your pool more than the builder you choose. Latham Pool Products has selected top builders from around the country. All Seasons is proud to be among these elite builders who have excellent reputations for building swimming pools of exceptional design and quality. When you select a Latham Pool Builder to create your Polymer Pool, you're getting the best of the best.

# Inground Pools & Spas

## Latham Pool Advantage

### Polymer Wall Panels

Latham's Polymer straight panel is made from high impact, non-corrosive polystyrene resin. The top, bottom and side rails of the panel are 4" wide, and each panel is rigidized with vertical and horizontal ribs. The center vertical rib in the 6' panel allows for a wall/deck support every 3' feet. Latham Polymer Pools combine the rugged engineering of a molded box-flange panel with the benefits of completely non-corrosive Structural Polymer, which means you can install a Latham Pool where soil conditions prevent the use of conventional steel.

### Heavy Duty Wall Brace System

The Latham heavy duty wall brace system is designed to hold the pool walls in place, giving maximum support. The convenient ground stakes secure the panels from any movement before the pouring of concrete. This guarantees a properly squared pool wall. The brace also allows for the attachment of our U-Tube, a concrete form which will help carry the deck load and add strength to the overall pool structure.

Photo showing the completely non-corrosive Structural Polymer pool panel and heavy duty wall brace

## CONSTRUCTION

For peace of mind!

Resins are the material of choice for many high-performance applications. They are strong and rigid for use in aircraft such as the Stealth Bomber. They are light-weight and durable for use in protective helmets and pads used to protect your children in sporting events.

**Wall panels and braces are made of an all-resin structural polymer that will never rust, oxidize, or degrade.**

## Steps, Ladders, & Benches

### Thermoplastic Step Collection For Vinyl Liner Pools

Thermoplastic Pacific steps are molded from a solid sheet of coextruded Luran® S with an ABS substrate from BASF resulting in a strong, one-piece design that will never delaminate, splinter, corrode, or puncture. The raised, non-slip tread pattern allows for safe and easy pool entry and exit.

The high-impact strength and flexibility of weatherable polymers enables Latham Steps to withstand the stress of frost and back fill saturation far better than other materials.

## Acrylic/Fiberglass Spillover Spas

### Spillover Spa with Surrounding Paver Brick

- Add a poolside spa to your poolscape to create a peaceful paradise. Color coordinate your spa to match your pool entryway and liner to achieve the perfect touch of harmony.
- Our in ground and spill-over spas are inherently rigid and strong, vacuum-formed from a single piece of acrylic, and then hand laid with fiberglass for structural support.
- We surround our spillover spas with paver brick and paver brick bullnose coping for a nice clean finished look.

## Shotcrete Spillover Spas

### Shotcrete Spillover Spas

If you're looking for the prestigious monolithic strength that is unsurpassed in concrete technology, then a shotcrete spa from All Seasons Pools, Spas & Outdoor Living is the spa for you.

Shotcrete spas are undoubtedly the most luxurious addition to a pool - the look and feel is simply exquisite. As is with a Shotcrete pool, a spa can come in any shape or size. Be it for looks or for health, a shotcrete spa is the perfect place to soak away the stress of everyday life and to accomplish this in a setting of serene elegance.

# Portable Spas

## Caldera Spas

### Why Choose Caldera?

#### The Best Hot Tubs Combine Comfort, Design and Performance

There are many hot tubs and spas in the market today. However, the closer you look, the easier it is to narrow your choice. If you want to transform tension into rejuvenation every time you step into your hot tub, look no further than Caldera Spas. All Caldera Spas are designed with their signature combination of Pure Comfort®, design, and performance to deliver optimal self-care and daily renewal.

#### Experience a Spa Like Never Before With Caldera!

- Beautiful interior acrylic shell, hand-crafted with Caldera's three-layer DuraBond system for strength
- Superior strength and design appeal of the Avante™ all-climate cabinetry on Utopia® Series models
- Durable, low-maintenance EcoTech™ cabinets on Paradise® and Vacanza® Series spas with the aesthetic appeal of natural wood
- Quiet and energy-efficient EnergyPro system®
- Energy-efficient and environmentally responsible proprietary FiberCor® insulation
- Integrated low-maintenance FROG® in-line water care system

**Caldera Spas Hot Tub Circuit Therapy®** helps you relax and transform areas that store pain, from the bottoms of your feet to the tightened muscles around your shoulders and neck. Each seat or position in the spa is intended to work a different muscle group, providing a deep massage where you need it most.

Choose from one of the **fifteen models** in the three series.

## Pool and Spa Pumps

### IntelliFlo™ VSF Pumps

The IntelliFlo VSF pump provides precise flow control, which means increased efficiency, savings and performance. The pump's innovative dual-technology design ensures the desired flow rate is maintained, no matter the conditions. Plus, the IntelliFlo VSF pump helps the rest of your equipment perform exactly as it's meant to—from filters to laminars to waterfalls. The IntelliFlo VSF variable speed and flow pump is just another in a long line of innovative products from Pentair.

#### FEATURES:

- ENERGY STAR® Certified
- Cost savings that average up to \$1,500 annually
- Up to 90% energy savings compared to previous-technology pumps
- Near-silent operation—as low as 45 decibels
- Super-efficient permanent magnet motor – the same technology found in hybrid automobiles
- Rotatable keypad with optional wall mount kit
- Seamlessly interfaces with IntelliTouch® & EasyTouch® Pool and Spa Control Systems

**90%**  
**Energy Savings!**

### WhisperFlo™ Pumps

Robust thermoplastic with the Cam & Ramp™ “see thru” lid design. Self-priming, high flow with patented Funnel-Flo diffusers. 2 in. suction and discharge ports. Motor features threaded shaft and durable commercial duty 56 frame motor with NEMA square flange.

### SuperFlo™ VS Pumps

SuperFlo VS pumps slash energy costs by up to 80%\*, compared to conventional pool pumps. With premium features like a 24-hour real-time clock and an intuitive interface that displays watts and RPMs, they're easy to program and operate. With the SuperFlo VS pump, you can enjoy big savings on your utility bill.

## Pool and Spa Filters

### Clean & Clear Plus™ Cartridge Filter

Clean & Clear® Plus Filters have a corrosion resistant injection molded filter tank featuring superior strength and reliability. The cartridge assembly uses four easy to clean, non-woven, polyester cartridges.

### Tagelus™ Sand Filter

Our unique, patented process creates a one-piece, fiberglass reinforced tank with superior strength and durability. Tagelus® Top Mount Filters are equipped with a six-position, clamp style, top mounted multi port valve.

### Perflex™ Earth Filter

Perflex Extended-Cycle D.E. filters clean pools fast, removing particles as small as two microns the first time through. An exceptional value as a replacement filter or for new pool installations. For sparkling, clean pools, step up to Perflex.

## MasterTemp®

### MasterTemp™ Heaters

MasterTemp® offers all the efficiency, convenience and reliability features you want in a pool heater, plus a lot more. As easy to use as your home heating system, plus, user-friendly indicator lights make system operation and monitoring a snap. The compact design and super quiet operation won't intrude on your pool side leisure time.

Because of its optimized fuel/air mixture, the MasterTemp is rated at a 84% efficiency rating, the highest in its class.

**84%**

**Efficiency!\***  
Best in its class

## Pool & Spa Automation

### EasyTouch® & Screenlogic®

The EasyTouch® Control System family offers a new level of control for homeowner's looking for an affordable, easy to use pool/spa control system.

EasyTouch allows full control of all pool/spa features including advanced options such as colored lighting and IntelliChlor® Salt Chlorine Generator support.

Every EasyTouch system includes an easy to use control panel that is built into the outdoor enclosure. This control panel allows for full system setup, programmability, and everyday operation. In addition, there are several other available remote interface choices as shown below.

# Chemical Automation IntelliChem®

## Keep Your Pool Water Perfectly Balanced With Hands-Free, Automated Ease

It can be a challenge to keep the pH and chlorine levels of your pool in constant balance rather than cycling up and down. The IntelliChem® chemical controller does it automatically by monitoring your pool's pH and sanitizer levels, and delivering just the right amount of chemicals. IntelliChem uses the same technology found in commercial installations, water parks, hotel and community pools. It can work independently, or together with Pentair automation products - so you can check your water chemistry at a glance.

- Programmable chemical feed cycle and mix times for precise water balance
- Assures safe water conditions by preventing excess chemical addition

## Salt Sanitizing Systems

### Salt Chlorine Generation

Salt chlorine generation uses common table salt to produce all the chlorine a pool needs, safely, effectively, and automatically. Same sanitation performance as manual chlorine addition without the drawbacks. These cells produce a steady stream of pure chlorine for softer, silkier pool water. It's the easiest and most effective way to maintain a sparkling clean pool.

-  • Reduces chlorine output when the pool is closed
-  • Prevents the generation of chlorine when the pump is not activated
-  • No more buying, carrying, storing or handling chlorine
-  • Once the chlorine has finished purifying the pool of contaminants, it reverts back into dissolved salt and the cycle repeats

### Brite Stix™ Skimmer Chlorine Stick

These compact skimmer sticks sanitize, clarify and soften water with a controlled delivery system for extended chlorination that lasts up to two weeks! That's what makes these premium sticks superior to the competition—a brilliant idea made even better with Poolife®'s patented ClearCare™ Technology additive for a clear difference you can see and feel.

# Automatic Pool Cleaners Pressure-Side

## Kreepy Krauly® Racer™

The new Kreepy Krauly Racer cleaner cleans 30% faster than any other pressure-side cleaner. It gets pools sparkling clean with 1/3 more power, a massive intake, and a built-in rotating brush to tackle dirt and debris with ease. Plus, the distinctive Night Cruise™ LED Lights add intrigue after dark.

## Polaris™ 3900

The Polaris 3900 Sport features an all-wheel PosiDrive system with durable stainless steel drive chain that delivers 50% more torque for maximum speed and performance.

It is equipped with a dual-chamber zippered SuperBag that picks up and stores more debris, making cleaning easy and less frequent.

### Polaris Booster Pump

The PB4-60 booster pump from Polaris delivers the best combination of high-performance power, quiet operation, and durability. Ultra low flow requirements allow this booster pump to operate on the low speed of a 2-speed or variable speed pump for energy savings!

## Polaris™ TR35P

It features an all-wheel, belt drive mechanism that provides greater vacuum power and faster cleaning (3 hours or less).

Powered by triple jets, the Polaris TR35P sweeps, scrubs, and vacuums the bottom, walls, and steps of the pool and holds debris in its single chamber filter bag. Its unique filter bag removes debris before it reaches your pump basket or filter, prolonging the life of your filtration system.

# Robotic

## Dolphin™ M400

- Weekly timer -- preset cleaning cycles throughout the week!
- Full filter indicator lets you know it's time to clean the cartridge
- Additional 3rd underside scrubbing brush powers away dirt and debris!
- Quick-n-easy top access filter cartridge
- Bluetooth Ready for remote guided navigation
- Patented swivel cable helps prevent tangling
- Incredibly efficient - costs less than 15 cents to clean the pool.

# Automatic Pool Cleaners In Floor Cleaning Systems

## Automatic, Silent, Systematic, Programmed Cleaning

For some people, the work involved in pool maintenance is all that stands between them and their dream pool. All Seasons' state-of-the-art pool cleaning, debris removal and circulation system is powered by amazing technology. This amazing and virtually invisible cleaning system always keeps your pool healthy, sparkling clean and swim-ready.

### DETAILS THAT MATTER

- Built into the floor and walls of your pool during construction
- Pop-up nozzles located throughout the pool bottom shoot streams of water that push debris to the drain area
- Main Drain Debris Removal System uses an efficient pump system to transfer waste from the main drain to an easy-to-clean canister at deck level
- Superior efficiency in water circulation saves you money on chemical & energy costs
- Custom-designed for your pool

## CIRCULATION BENEFITS

- Enjoy cleaner, healthier water
- No poorly-circulated algae-prone areas
- Eliminates cold spots for more comfortable swimming
- Saves on chemicals during the entire life of the pool
- Saves energy costs for the entire life of the pool
- Better for the environment
- Independently proven to save you money for the life of your pool

Ordinary Pool

Saves heat and energy

Saves chemicals

# Pool & Spa Lighting

## White Lights

### Amerlite™ Incandescent White Light

Incandescent lights have been the world standard of reliability for underwater pool and spa lighting for decades. In fact, tonight they will light more than 3 million pools around the world.

### IntelliBrite 5g™ LED White Light

The IntelliBrite 5g White underwater LED light is not only brighter than incandescent lights, it's the brightest on the market.

 The IntelliBrite 5g light uses only 70 watts to create the same light output as a 500 watt incandescent light bulb. That's 86% less energy used!

## LED Light Upgrade Options

### IntelliBrite 5g™ LED Light

IntelliBrite® 5g automated color-changing pool and spa lights feature LED technology, the wave of the future in energy efficiency, lifetime value, quality of light, and controllability.

With IntelliBrite 5g, combinations of individual colored LEDs are mixed and matched to achieve a vibrant spectrum of colors. These combinations are power sequenced to illuminate and cycle through colors at varying speeds, and in different sequences of color.

### Savi Mini Melody LED Light

Are you looking to rid of your old fiber optic lights that are just not as bright as they used to be or just want to upgrade to the new light? The Mini Melody's are right for you!

With bright luminosity and powerful durability, the Savi Mini Melody 12V Pool and Spa Light exemplifies the innovative direction of Savi lighting. The Mini Melody LED Pool and Spa Light is ideal for steps, swim-outs, sun-shelves, small pools, spas and shallow water applications. Whether you desire a solid color or would like a color changing effect, the Mini Melody is the light to upgrade to!

## Winter Safety Covers

### Loop-Loc Pool Safety Covers

Imitation is the sincerest form of flattery - except when it comes to your family's safety. So make sure you protect your family with "The ELEPHANT™ Cover". The only mesh safety pool cover proven strong enough to support an elephant. No other pool safety cover meets our quality standards - or comes with our commitment to superior customer service. Built super-strong and securely anchored into the deck, LOOP-LOC puts an unbreakable "lock" on your pool to protect your family.

### PROTECT WHAT YOU LOVE

### COVER MATERIALS PERFORMANCE SPECIFICATIONS

#### Super Dense Mesh

Manufactured of ultra-strong, super dense mesh that blocks virtually all sunlight but still lets rain and melting snow easily drain through. A Mesh safety pool cover is the perfect choice for customers who want less light and debris in their pools, but still want the one-of-a-kind protection of the only pool cover proven safe and strong enough to support an elephant!

PROTECTION	SUNBLOCK	WARRANTY	COLORS

## Automatic Safety Covers

### Automatic Covers Save You Money

By saving heat, chemicals, cleaning and extending equipment life, your Coverstar® cover quickly pays for itself. You can save up to 70% on operating costs—a great return on your investment.

#### Energy and heating costs

The Eclipse™ Cover acts as a passive solar heater by capturing the sun's radiant heat. It reduces heat evaporation, keeping the pool warm when the air temperature cools off at night. This dramatically cuts down on heating costs while extending your swimming season.

#### Water and chemicals

By reducing evaporation, your Eclipse™ pool cover cuts water loss and reduces the use of chemicals. On indoor pools, your cover prevents evaporation, and in most cases, can eliminate the need for expensive dehumidification systems.

#### Cleaning and maintenance

Keep dirt, leaves and debris out by simply keeping your pool covered. The Eclipse™ pool cover reduces maintenance costs and keeps your pool cleaner.

#### Pool equipment and pool life

With the heat kept in, and with dirt and debris kept out, your pool equipment works less and lasts longer.

## Why Coverstar®

#### Reliable Mechanism

Ultra strong stainless steel bracket components make COVERSTAR the most durable and reliable automatic safety cover on the market. Nothing stands up better in the harsh, corrosive pool environment. That's why COVERSTAR mechanism warranties are among the best in the industry.

#### Sealed Motor

The motor's hardened stainless steel shaft and oil bathed gears eliminate motor problems. It is sealed against water by the original motor manufacturer. The motor can operate even when completely submerged if the housing is temporarily flooded. Other, less-reliable means of motor protection could mean an expensive motor repair.

#### Adjustable Torque Limiter

A mechanical torque limiter protects the motorized mechanism from too much stress. Other automatic covers often use an electronic torque limiter that can fail in the harsh pool environment.

#### High Tech PowerFlex Ropes

PowerFlex Ropes behave like a shock absorber that allows it to be more forgiving and self adjusting during operation. It also resists distortion that is common with autocover ropes, making it easier to install and operate with fewer adjustments.

Navy, Royal, Light Blue, Green, Tan, Brown, Gray, Charcoal, Black

### Peace Of Mind

A safety pool cover offers numerous benefits for swimming pool owners, but the benefit that trumps them all is that they prevent drowning.

As a safety device, the cover acts as a horizontal fence, completely sealing off the pool and preventing accidental access to the pool water by children, pets, and uninvited visitors.

And while there's no substitute for proper supervision, your pool can be protected even when you're not around. It's the ultimate safety barrier that no pool should be without.

## Diving Boards

The La Mesa™ diving set up is a customer favorite and one of our best selling diving bases. The stylish design, versatile size options and compatibility with the new Duro-Beam aquaBoard™ make it a popular choice. The La Mesa™ base comes standard in white, and can be upgraded to one of 3 designer upgrade colors. Pair the base with an upgraded color diving board for a sleek look to match your backyard décor.

### La Mesa Board Colors

# Poolside Fun

## Pool Slides

### Turbo Twister™

The TurboTwister gives you waterpark thrills in your own backyard! Whether it's the rushing water or thrilling dips and curves that you love, the TurboTwister is packed with tons of great features for the entire family. With sturdy molded-in handrails and an enclosed ladder, we've made safety a top priority.

## SERIOUS FUN!

### Typhoon

This full-sized addition to our rotomolded slide line (TurboTwister and Cyclone) stands 7'4" tall to the top of the handrails, and is available in sandstone and gray granite.

### The Rogue™

The Rogue GrandRapids is a great value! An economical choice, it is still packed with lots of great features, like our GrandRapids water delivery system.

### Cyclone™

This slide will make a big splash with the little ones that enjoy your pool! The Cyclone incorporates many of the same great features of our TurboTwister, but in smaller proportions at just 4 feet tall.

# Poolside Fun

## Pool Slides

### BigRide™

The BigRide swimming pool slide adds big fun to your pool with a super long, extra deep runway and cascades of rushing water for the ride of your life! The BigRide is the answer to your need for a really fun pool slide that also looks great in your backyard.

## MORE SERIOUS FUN!

### G-Force 2™

The 6' G-Force 2™ slide packs a thrilling 360° ride that brings the amusement park excitement home to your own backyard.

### X-Stream 2™

The 6' X-Stream 2™ pool slide boasts an exhilarating 2-turn ride that will impress all of the kids in the neighborhood.

### Adrenaline™

The 7' Adrenaline™ slide is the tallest Inter-Fab slide in its class, FUN-sized, and packed with features to make it one of the most entertaining water slides on the market!

## Basketball & Volleyball

### Basketball Volleyball Combo

Regulation size Pool Basketball set includes special color matched ball and notched powder coated aluminum post with finishing ring. Special anchor comes with finishing cap to replace post when not in use. All hardware is stainless steel. Regulation size Pool Volleyball set includes 1 1/2" dia. powder coated aluminum post, 24' net with shortening kit, adjustable height net clamps and hot colored ball. Games share 2 anchors to combine DeckVolly and DeckShoot sets. (Games cannot be played at same time).

### Swim-N-Dunk Basketball Game

The Swim N' Dunk Residential Challenge Salt Friendly Dual Post Basketball Game features a SealedSteel coated, one-piece upright frame and rim. The continuous uprights require less hardware and allow for quicker assembly, while the SealedSteel Salt Friendly coating will stand up to harsh pool environments. The game can be removed from anchors for seasonal storage, and the optional anchor caps put in place.

## Enjoy the Beauty of our Unique Designs

### Custom Natural Stone Waterfall

We specialize in Custom Water Feature Designs and Accents. Using only the best components from leading manufacturers, our design specialists can create features from raging waterfalls with dramatic caves to babbling brooks with gentle cascades of water. With the addition of custom colored lighting, creatures and fog effects, our water features really come to life.

### Deck Jets

Perhaps nothing else soothes the soul like the sight and sound of moving water. With Deck Jets, you can add to the peaceful tranquility of your poolside experience a number of ways... more economically than ever before.

### Laminar Jets

Laminar Jets create totally clear, uniform arcs of moving water that originate from either your pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored with an LED light source.

# Water Features

## Escape to your Ultimate Pool

### LED Light Bubbler

Whether you're in the mood to relax or entertain, ColorCascade bubblers are the perfect way to showcase and enhance pool features like sun shelves, steps and beach entries. You'll be amazed as your pool comes to life with vivid color-changing LED lighting and fountain-like water movement.

### Splash Pad

A backyard splash pad is a great complement for existing pools. A unique add-on for new pool construction, or it can be installed as a stand-alone, play-in water feature.

## Beauty as day turns to night

## Belgard Pavers

### Mega-Arbel® Paver

Mega-Arbel pavers give homeowners the perfectly integrated, natural-looking hardscapes they desire. Featuring a range of attractive natural hues to choose from, Mega-Arbel's scale is similar to natural flagstone—roughly two times larger than Arbel, its smaller counterpart. Plus, installation is easy—cutting is reduced to a minimum due to Mega-Arbel's ingenious interlocking design.

#### Color Selection

### Mega Lafitt® Paver

The newest addition to the Belgard Collection, Mega Lafitt features the most natural looking texture available in a modular paver. Mega Lafitt combines the look and feel of cut flagstone with the strength and long-term durability customers expect from Belgard. Its larger proportions and modular shapes allow for ample design flexibility, and with an 80mm height, installation is a breeze.

#### Color Selection

### Urbana Stone® Paver

The Urbana® Collection's fine chiseled textures and contours combine with its random shapes and patterns to recall vintage cut stone. It is offered in a versatile three-piece modular system with an optional large square that adds a broader range of shapes and an even grander scale.

#### Color Selection

### Mega-Dublin® Paver

When you create an outdoor living room, you can be sure it will not only be filled with life, but with moments that last a lifetime. Whether hosting an impromptu dinner party, inviting the neighbors over, or just spending some quality time with your family, Belgard Mega-Dublin is your choice for a beautiful patio design.

#### Color Selection

## Belgard Pavers

### Holland Stone® Paver

The Simple Elegance of Holland Stone Makes Your Home Simply Magnificent. Sometimes the most elegant ideas are also the most simple. Introducing Holland Stone, Belgard's solution to finding a refined, yet versatile paver. Because of its classic, rectangular shape, you can create numerous interesting architectural designs that remain as stylish and attractive through the years as the day they were installed. Holland Stone - simple shape, simple elegance.

#### Color Selection

### Old York® Paver

Old York™ Pavers designed by Belgard® provide a natural yet elegant look that will bring your outdoor space to life. With the appearance of weathered clay brick and a wide assortment of face textures and installation patterns, Old York™ Pavers give you the means by which to create a unique and attractive outdoor area. Great for use in a wide range of hardscape projects.

#### Color Selection

### Lafitt Rustic Slab® Paver

Lafitt Rustic Slab features the look and texture of cut slate combined with the lasting strength and staying power that are hallmarks of Belgard pavers. Three shapes allow for a wide variety of design options, giving homeowners the ability to create eye-catching patios, walkways and more, with a natural slate appearance.

#### Color Selection

### Cambridge Cobble® Paver

Both durable and adaptable, Cambridge Cobble® offers a more tailored, architectural look with its gently rounded corners and domed pillow top surface. The subtle color combinations and versatile pattern make it ideal for crafting intricate circular designs and captivating walkways.

#### Color Selection

## Concrete Options

### Broom Finished Concrete

Standard concrete, broom finished, with controlled expansion joints to add style.

### Dyed Concrete

Combining the stability of concrete with the enticing colors of stone and brick, dyed concrete offers beautiful alternatives for homeowners. Many different colors to choose from.

### Stamped Concrete

Also known as patterned concrete and is designed to resemble brick, slate, or tile on the pool deck surface.

## Paver Brick Coping

The smooth surface of the bullnose paver offers many opportunities that are only limited by your imagination. Whether you are looking for something to surround your pool or searching for a unique step application, Belgard's bullnose paver is the answer.

Give your pool the natural warm look of Weston Wall Cap style brick coping. Brick coping works hand-in-hand to create a stunning and inviting centerpiece to your backyard landscape.

### Limestone / Bluestone Coping

Available in both a square finish and bull nose finish and can be manufactured in custom sizes for unique applications.

### White Aluminum Coping

All coping is made from heavy-duty, electro statically coated aluminum extrusion. Can be bent for custom shaped vinyl liner pools!

### Travertine Coping

Travertine is one of the most frequently used stones that you might see today in modern landscaping. Travertine is a natural stone tile.

## Retaining & Sitting Walls

### BelAir Wall 2.0®

Belair Wall® 2.0 is ideal for retaining and freestanding wall construction where aesthetics are a key consideration. The attractive multipiece design and blended colors offer an alternative look to traditional retaining wall blocks. Belair Wall 2.0 can be used in curves and corners, terraces and raised patios, or steps and columns.

#### Color Selection

Ashbury Haze

Cotswold Mist

Gascony Tan

### Weston Stone®

A versatile system, Weston Stone Wall's flexibility is unmatched. Its natural stone appearance allows for a wide range of applications and design options. This double-sided wall is the ideal choice for garden walls, pillars, outdoor kitchens and planters.

#### Color Selection

Ashbury Haze

Bannockburn Red

Bristol Beige

Cotswold Mist

Brookstone Slate

Gascony Tan

### Mega-Tandem®

The ideal alternative to natural stone, Anchor's Highland Stone System offers the same rich earthen tones, textures and varied contours. This easy-to-install system, comprised of 6-inch high units, is normally installed in a random pattern using any combination of units.

#### Color Selection

Cotswold Mist

Margeaux Beige

### Wellington Wall®

One of the newest additions to the Belgard line of wall products, Wellington Wall is perfect for creating stunning landscape solutions as well as simple sitting walls. From terraces and retaining walls to columns and raised flower beds, this wall adds depth and beauty to any outdoor space.

#### Color Selection

Cotswold Mist

Ashbury Haze

Gascony Tan

## Indulge yourself with a Personal Oasis

At All Seasons Pools, Spas & Outdoor Living, our goal is to make sure that your house is always the center of your social network. Whether it's creating a way to cook and eat outside or creating a fire feature to have a comforting place to warm you in that cool night air, adding an outdoor cooking center, living room, or fire pit is the perfect way to finish off your backyard paradise.

### Custom Outdoor Kitchens

Outdoor cooking centers offer convenience, flavor and appeal. Our custom outdoor kitchens complete your outdoor living space by bringing the kitchen to the pool. Finished with materials to accent your pool and match your home, these centers are built around you and for you. By including everything from refrigerators and wine chillers to searing burners and more, All Seasons will provide all that you need to prepare that gourmet meal for your family and friends.

### Available Options

- Natural stone veneer or paver brick construction
- Granite or travertine counter tops
- Warming Drawer
- LED accent lighting
- Stainless steel cabinets and drawers
- A variety of different size grills available
- Refrigerators
- Umbrellas
- Custom taps to serve beer or juice
- Chicago Brick Ovens

# Indulge yourself with a Personal Oasis

## Custom Fire Pits & Fireplaces

Our fire features offer a romantic evening accent and a comforting place to warm you in the cool night air. Pour a glass of wine and snuggle up to a warming outdoor fireplace or grab some marshmallows and toast them with the kids next to an All Seasons created custom fire pit. We can combine water elements with our fire features as well, to create soothing sounds of bubbling brooks with the hypnotic effect of the dancing flames.

### Available Options

- Wood burning or natural gas
- Surrounding sitting walls
- Wireless ignition or manual-lit
- Vented or vent free fireplace
- LED accent lighting
- Paver brick or natural veneer construction

# Outdoor Living

## Indulge yourself with a Personal Oasis

### Custom Built Outdoor Living Rooms & Pergolas

Traditionally, the favorite hangouts in the home have been the kitchen and family room. But today, the backyard is taking over as the favorite gathering space for cooking, entertaining and relaxation. More homeowners are bringing all the comforts of their indoor rooms to the outside by creating multipurpose outdoor living spaces that function as inviting extensions of their home.

#### Available Options

- Cedar and composite pergolas
- Custom waterfalls raining into your pool
- Ceiling fans
- Televisions
- Fireplaces
- And much more. All rooms are 100% custom to fit your needs

# Outdoor Lighting

## LED Landscape Lighting

Today's homeowners see their landscapes as a source of pride, a refuge for relaxation, and a place to enjoy good times with family and friends. Our lighting brings these spaces to life after the sun goes down, providing an unmatched aesthetic effect while adding safety and usability.

### LED Landscape Lighting Advantages

- LED landscape lighting can save up to 80% in outdoor lighting energy costs, saving you \$100s per year.
- LED Lamp replacement is almost nonexistent. This reduces the lighting maintenance costs to almost zero. LED landscape lamps last up to 40,000 hours (that's 21 years at 5 hours per day). WOW!
- LED outdoor lighting is the cutting edge lighting technology. Why install an outdoor lighting system that utilizes old inefficient technology?
- LED outdoor lighting is the safest form of lighting. LED landscape lighting produces very little heat compared to halogen landscape lights. The landscape fixture is only slightly warm to the touch where as halogen 12 volt landscape lights can cause burns to people, pets or plants.
- LED lamps are able to withstand bumps and knocks. Unlike incandescent lamps, LED bulbs don't have delicate filaments which can be damaged due to movement of fixture during maintenance or rough gardeners.

## Swimming Pool Services

### Scheduled Maintenance Services

As Chicagoland's preferred pool and spa service center, our customers turn to us for their routine pool & spa cleaning, water testing and maintenance needs. Spend your free time enjoying your pool, not maintaining it. Our highly trained maintenance technicians will see that your pool is always ready for you!

We provide a variety of maintenance packages for inground pools and spas to fit every need. Indoor or outdoor, once a week to once a month, we have a program that's perfect for you.

On every maintenance visit, using the most advanced technology available, our technicians perform computerized analysis of your water right in your own backyard, emailing you the results before they leave your home, keeping you as informed as you can be about what is done at each visit! Historical records of each test are stored for future comparisons and can be accessed by our employees in the field or at our retail store.

With this information, we'll make precise adjustments to the water chemistry, helping you to ensure the perfect swimming environment. We'll also clean your pump and skimmer baskets, clean your filter and empty automatic cleaning equipment bags and screens. Before we leave we'll even inspect your equipment to help make sure everything is functioning properly.

Other services that are available include waterline and tile brushing, vacuuming and surface skimming.

All Seasons can do as much or as little of the routine maintenance as you feel necessary, so you can spend more time enjoying your backyard!

### Swimming Pool & Spa Repair Services

At All Seasons Pools, Spas & Outdoor Living, we have an exemplary APSP certified in-house Repair Department that boasts over 200 years of combined experience. All Seasons is a factory authorized warranty station that allows us to SERVICE WHAT WE SELL.

### Seasonal Opening & Closing Services

Proper seasonal openings and closings are crucial to the longevity of your pool and spa equipment as well as the pool surface. Our expert technicians will start your season off right with a professional opening. Once the winter chill heads towards the Chicagoland area, there's no better choice than to choose All Seasons for your pool's winterizing needs.

## Certifications

When you choose All Seasons, you are choosing unmatched professionalism, quality and knowledge.

### The Association of Pool & Spa Professionals

APSP Certifications: Certified Building Professional, Certified Service Professional, Certified Service Technician, Certified Maintenance Specialist & Certified Hot Tub Technician.

The Association of Pool & Spa Professionals (APSP) is the world's oldest and largest association representing swimming pool, spa, and hot tub manufacturers, manufacturers' agents, builders, designers, distributors, suppliers, installers, retailers, and service technicians. Dedicated to the growth and development of its members' businesses and to promoting the enjoyment and safety of pools and spas, APSP offers a range of services, from professional development to advancing key legislation and regulation at all levels, to consumer outreach and public safety. APSP is the only industry organization recognized by the American National Standards Institute to develop and promote national standards for pools, hot tubs, and spas.

### Genesis 3 Design Group

Gold Member

Since 1998, Genesis 3 has set the standard for quality programs, offering hundreds of educational venues internationally for thousands of students, ultimately creating the Society of Watershape Designers and Platinum Certification. As the only third-party accredited education in the industry, Genesis 3 has enhanced the opportunity to fulfill the quest of like-minded professionals to have true credibility.

### Interlocking Concrete Pavement Institute

ICPI Contractor Member

ICPI is dedicated to providing education and resources that will advance the segmental concrete pavement (Pavers) industry and provide resources to ensure that segmental pavement systems are the preferred choice for environmentally friendly pavements in North America.

Whether you're a design professional, contractor or an industry sales professional, ICPI offers a wealth of educational resources
