Salt Chlorine Generators and Chemical Automation

iChlor® Salt Chlorine Generator

The iChlor Salt Chlorine Generator features smart technology that provides built-in intelligence for unmatched convenience and control. Just add salt to generate all the chlorine your pool needs. iChlor produces a steady stream of pure chlorine for softer, silkier pool water. It's the easiest and most effective way to maintain a sparkling clean pool.

IntelliChem® With Salt Chlorine Generator

It can be a challenge to keep the pH and chlorine levels of your pool in constant balance rather than cycling up and down. The IntelliChem® chemical controller along with iChlor® Salt Chlorine Generator does it automatically by monitoring your pool's pH and sanitizer levels, and delivering just the right amount of chemicals.
