

**Northern Bay
Hot Tubs®**

Luxurious hot tubs at affordable prices with integrity, reliability and quality!

About Us

Northern Bay Hot Tubs® evolved from the upper Midwest where families enjoy the tens of thousands of lakes with recreation and relaxation. The Midwest lakes have been a place for fun activities for many decades, and not just for residents but also for tourists from all over the world.

Northern Bay Hot Tubs® are hand crafted and designed for hydrotherapy, comfort, wellness, and reliability at affordable price points. Our hot tubs are built for the harsh Midwest winters at low operating costs. Northern Bay Hot Tubs® partner company Saratoga Spa® has over 3 decades of hot tub manufacturing and holds some of the industry's most unique patents.

Saratoga Spa®, a company deep in tradition, takes its name from Saratoga Springs, N.Y. a bastion of Hydrotherapy, rest and recreation since the 17th century.

Over 35 YEARS of Manufacturing Excellence the Saratoga Spa® Company has a long history of design and innovation.

Northern Bay Hot Tubs® provide luxurious hot tubs at affordable prices with integrity, reliability and quality for families to build hot water memories.

Our A.Q.U.A. Philosophy

Affordable Leisure

Our hot tubs are designed for Luxury at affordable price points with the latest technology from industry leaders like Waterway and Lucite. Families have been enjoying our hot tubs for more than 3 decades!

Quality

Northern Bay Hot Tubs® are built with 35 years of manufacturing experience for quality, hydrotherapy, luxury and reliability. Northern Bay Hot Tubs® are easy to maintain and every hot tub is hand built and water tested twice at our family owned facility.

Ultimate

Our hot tubs are the ultimate in design and built for style, comfort, performance, relaxation, therapy, and leisure at an affordable price with one of the best warranties in the industry. We wrap all of this in a beautiful shiplap cabinet.

American-Made

Northern Bay Hot Tubs® are manufactured in New York and components are sourced from the U.S.

Northern Bay, your American-made hot tub!

Platinum Collection

Northern Bay Hot Tubs® Platinum Collection offers some of the most unique features in underwater massage. This collection of hot tubs provides two independent therapy systems; Our Direct Impact Therapy and Passive Impact CFE™ Therapy system which give you the control to customize your massage. Whether you desire a scrolling massage for your back, relieving the tension in your neck and shoulders or a therapeutic massage for your arms, hands, wrists and feet, you'll enjoy it all in the Platinum Collection. Continuous filtration with ozone and dual filters keep maintenance to a minimum and gives you more time to enjoy your hot tub.

PLATINUM COLLECTION EXCLUSIVE THERAPY SYSTEMS

Direct **IMPACT THERAPY**

PROJET STREAM™ THERAPY

ProJet Stream™ Hydrotherapy offers a uniquely concealed jetting system in the spa shell as shown here. The rotation of the ProJet Stream™ Valve controls this hydro driven jet, providing relief to tense neck and shoulder areas without the confining experience of a reverse molded spa.

ROTO STREAM® SEQUENCING SYSTEM

The patented Roto Stream® Sequencing System provides the spa user an automated massage experience, sequencing hydrotherapy automatically through the illustrated positions 1-4, while allowing the spa user to either control the speed of the experience or isolate a specific location any time during the massage.

VERSA-FLO™ HYDROTHERAPY SYSTEM

The Versa-Flo™ Therapy System represents the Direct Impact™ Therapy operation of the Platinum Collection Spa Line. This is in contrast of the CFE system's passive relief therapy. This Direct Impact™ Hydrotherapy System gives relief by Versa-Flo jetting moving direct pressure therapy right where your body needs it, regardless of the muscle size or location. Versa-Flo™ provides the versatility to create a different relief point on multiple body locations.

PLATINUM COLLECTION EXCLUSIVE THERAPY SYSTEMS

Passive IMPACT THERAPY

CFE™ HYDROTHERAPY SYSTEM

The CFE™ (Coplaner Fluid Ejector) Hydrotherapy System is a patented Passive Therapy system that move a stream of water parallel to the body.

POWER MASSAGE® is a unique system which provides tension relief along the curves and angles of your body. Specially designed contours in the spa shell guide powerful, therapeutic water ribbons down the neck and back area and along the full length of your spine. These patented jets are concealed by the head rests and offer a revitalizing experience truly unique in the spa world.

POWER MASSAGE PLUS®

Combining two hydrotherapy jets in one behind the headrest with a small custom valve, your Platinum Collection is able to isolate the back, neck and shoulders at the ideal angle.

POWER STREAM®

Northern Bay Hot Tubs® combine the parallel movement of air and water in the Power Stream® providing a relaxing, therapeutic ribbon of massage for the hand, wrist, arm, and feet.

Features & Options

Multi Clean™ System

(Resort, Moonlight, Whitewater and Splash Models)

Always clean, always warm, always inviting. The Multi Clean™ System is customizable allowing proper circulation in combination with cleansing Antimicrobial Filtration, providing spa water that is maintained efficiently and effectively.

Antimicrobial Filtration

The Antimicrobial Filtration is designed to inhibit odor, mold and mildew on the surface of the filter cartridge. The Multi Zone™ system is designed to circulate water through these Antimicrobial cartridges. This will ensure your spa water has been properly filtered.

Multi Zone™ Ozone Ready

Optional environmentally friendly Ozone, a natural sanitizer, will help in providing a better soaking atmosphere in your spa water. Northern Bay Hot Tubs® come Ozone ready.

Custom Circulation System

Northern Bay Hot Tubs® have Customizable Circulation Cycles designed for your lifestyle. This system can circulate and filter thousands of gallons of water using up to four different circulation cycles.

Northern Bay™ Operations Center

The Operations Center contains all the programmable spa functions, while the Horizontal Mount Heater thermostatically controls the warming of the spa in the most efficient way possible.

Continuous Clean System

(Platinum Collection Only)

Always clean, always warm, always inviting. The Continuous Clean System operates continuously, allowing proper circulation in combination with cleansing Antimicrobial Filtration and ozone injection providing spa water that is maintained efficiently and effectively.

Antimicrobial Filtration

The Antimicrobial Filtration is designed to inhibit odor, mold and mildew on the surface of the filter cartridge. The Continuous Clean system is designed to circulate water through these Antimicrobial cartridges. This will ensure your spa water has been properly filtered.

Multi Zone™ Ozone

Ozone, a natural sanitizer, will help in providing a better spa soaking atmosphere. The Multi Zone™ ozone generator is standard on your Platinum Collection Model.

Continuous Circulation™ System

Platinum Collection models use a dedicated 35 GPM pump to provide continuous water circulation while maintaining cost-efficiency. This Continuous Circulation™ system moves over 50,000 gallons of water per day.

Platinum Control Panel

Our Lifestyle Programming design provides the ultimate in user friendly controls while maintaining the sophistication of the latest diagnostic technology.

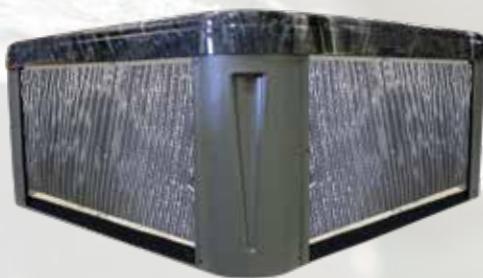

Heat On Demand/Operations Center

The Operations Center contains all the pre-programmed spa functions, while the Horizontal Mount Heater thermostatically controls the warming of the spa in the most efficient way possible.

Thermal Bond™ Insulation System

The Thermal Bond™ Wrap Insulation System is standard on all Northern Bay Hot Tubs® and utilizes three key components in providing efficient heat retention and lower operating costs. First and foremost is the spa cover that seals in the heat from the top. Secondly we use the Thermal Bond™ Wrap Insulation to retain warm air that is created inside the spa cabinet. Thirdly, the Thermal Bond™ Wrap sealed base helps keep warm air in and cold air out of the bottom of the spa cabinet. These three components allow you to be soaking in a spa that is designed to be ready when you are.

MULTI WEATHER™ EXTERIOR

The Multi Weather™ exterior is designed as a low maintenance and durable product. It is designed for easy care while continuing to look great for years to come.

Features & Options

Midnight Lights™ & Midnight Lights TF™ LED Lighting Systems

Northern Bay offers two Lighting LED Systems using key locations throughout the spa. These LED Systems offer an array of bright digital colors and sequences to increase your spa use enjoyment. The Midnight Lights TF™ adds the use of an LED Water Feature to the system. Ask your Dealer about Models and Series availability.

Tranquility Falls™

These streams of cascading water enhance the spa's atmosphere. Northern Bay offers LED Water Features standard on most models. Ask your Dealer about availability.

Duotone™ Jet Accents

Duotone™ Jet accents are standard features on the Northern Bay Hot Tubs®. They provide a modern look highlighting the spa's appearance.

Stainless Jet Accents (Platinum Collection only)

These jets use a stainless steel accent to create a designer look that adds a classic finish to our luxurious series.

Rhythmic Waves™ Sound System

Enjoy music in the comfort of your spa with Northern Bay's optional Bluetooth Streaming and Dual Speaker System. Ask your dealer about model availability.
