Top 50 Builder

7 Straight Years, Voted Top 50

All Seasons is proud to be named a Top 50 Pool Builder in the country for seven years in a row by Pool & Spa News, the voice of the industry. From 2013 through 2019, All Seasons has received this honor through a rigorous judging process utilizing five criteria: Revenue, Staff, Industry Involvement, Web Presence and Community Involvement.

A company is only as strong as its staff and All Seasons is proud to be ranked top 10 in this category. All Seasons scored at the top due to our high rate of employee tenure with many of our employees having been with the company for ten, fifteen, twenty or more years and because of our commitment to annual staff training and re-certification. APSP Certified Professionals adhere to strict ethical standards and commit to the highest standards of service, performance, and ethical conduct.

Community involvement has always been a huge focus of ours. We're honored to be ranked top 5 in this category. Over the last 7 years, we've raised thousands of dollars for foundations like Camp Quality of Illinois, Honor Flight Chicago & The Crisis Center For South Suburbia.

About Us

Dear Prospective Client:

All Seasons Pools, Spas & Outdoor Living, Inc. is thrilled that you've taken time to talk with our specialists about building your backyard dream. We understand that finding the right company who can help you to create a backyard that will provide your family with years of memories is no small task.

Since 1954, our skilled, in-house craftsmen have been creating backyard dreams complete with unique swimming pools, soothing spas, warming fireplaces, outdoor kitchens and fire pits in custom designed outdoor living spaces. Whether entertaining or just simply relaxing with family and friends, our life-long clientele have found that our natural stone waterfalls, cascading rain descents and bubbling water effects bathed in the glow of romantic lighting provide them stress relieving sights and sounds in their very own private retreat.

Working closely with you, our PHTA Certified Building Professionals, sales staff, designers, and foreman will ensure that only the highest quality construction standards are maintained while using the best equipment and materials available to our industry. Having more Certified Building Professionals than any other pool company in the Midwest gives us a vast resource of knowledge that only this type of training and experience can provide.

Your peace of mind is one of our highest priorities. Throughout the process, you will find that our staff is eager to help you with your decisions. Working together, we'll design and construct a backyard that will create life-long memories full of fun, warmth, relaxation and family, while never taking our eye off of our main goal that when your project is done, we'll have gained another member of our extended family.

We're excited to provide you with this catalog full of ideas to help you create your backyard full of dreams and memories.

Sincerely,

The Family at All Seasons Pools, Spas & Outdoor Living, Inc.

Inground Pools & Spas

Shotcrete Pools

All Seasons Pools, Spas & Outdoor Living is proud to be honored annually by the Pool & Hot Tub Alliance as one of the top Shotcrete pool builders in the Chicagoland area. Our design consultants work closely with you to create your personal backyard retreat that centers on how you like to live, work and play. Our Shotcrete pools offer a strong and seamless pool structure in virtually any shape imaginable.

Manhattan, IL - Best Of Show Award Winner

Why Shotcrete?

Because it is highly durable and it can be created in just about any shape. Shotcrete pools use a rebar framework that is sprayed over with a concrete and sand mixture. Having a higher compressive PSI strength, our shotcrete method is stronger than a poured concrete pool, and by having no seams or "cold joints", our shotcrete pools are more watertight. Shotcrete is exceedingly durable, so swimming pools made of this substance are built to last. The versatility of shotcrete swimming pools means more than the ability to create an unlimited array of shapes, such as: suntan ledges, custom steps, bench seating, swim-up bars, built-in bar stools, and much more!

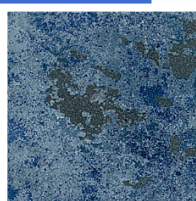

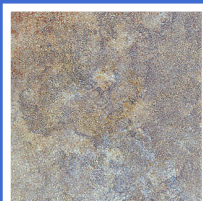

PHTA Gold Standard Award Of Excellence - Shotcrete

Customizing Options

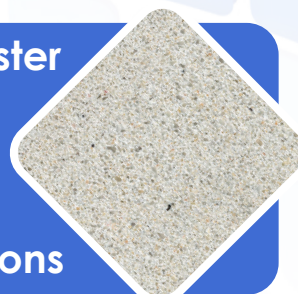

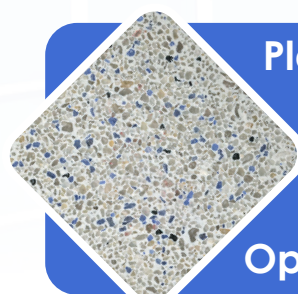

When designing your Shotcrete pool or spa, selections are made for the tile border around the perimeter walls and a selection for a plastered finish that will add sparkle to your water.

Inground Pools & Spas

Shotcrete Pools Customizing Options Sun Tanning Ledge

Swimming pools and sun go hand in hand. One of the many advantages of building a shotcrete pool is the ability to create a custom suntan ledge that everyone can lounge on while adding a little sun to their complexion.

Custom Steps and Bench Seating

They're not just steps, they're an entrance way into your water world. Our ability to create custom steps & benching allows the pool to be more usable to your needs while adding a splash of character.

Swim-up Bars and Built-in Bar Stools

Swim-up bars make it possible to enjoy a drink or snack without getting out of the pool. For years, they have been a popular hang out at tropical resorts and recently they have gained popularity in residential backyards.

Inground Pools & Spas

Fiberglass Pools

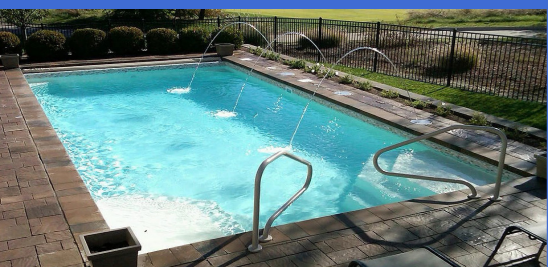

All Seasons Pools, Spas & Outdoor Living proudly offers fiberglass inground pools.

Fiberglass pools have been increasing in popularity in recent years, and we offer the largest variety of fiberglass pool sizes and shapes of any Chicago area pool builder!

Our design team at All Seasons Pools will work with your family to find the perfect high quality and long lasting fiberglass swimming pools available!

Fiberglass Pool Gallery

Why Choose a Fiberglass Pool from All Seasons

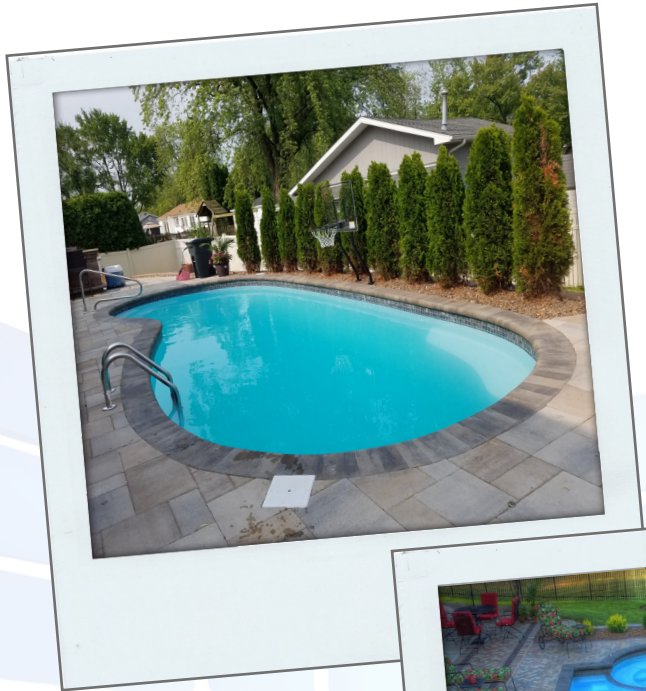

Chicago's Largest Selection With a range of fiberglass pool designs, All Seasons offers the largest variety of shapes and sizes of any Chicago area pool builder! Our expert design team is here to walk you through all the steps to complete your backyard paradise!

Built to Your Liking As the pool industry grows, more and more customization to pools happens. Most pools (of any type) today include steps, benches, deep water safety benches, tanning ledges, splash decks and other features that make your pool more enjoyable. Fiberglass Pools have the benefit of these all being manufactured items that are a part of the one-piece shell construction.

Easy to Install By having a fiberglass pool installed by All Seasons Pools, you can enjoy your new pool in little to no time! The pool shell comes pre-built from the factory ready to set in the ground and finish installation for you and your family to enjoy throughout the rest of the season!

Inground Pools & Spas Vinyl Liner Pools

All Seasons Pools, Spas & Outdoor Living also offers customers 'smooth sailing' in a vinyl liner pool. We have a variety of patterns and 3-D designs to pick from for a lining that's soft to the touch, fits the pool like a wet suit, and is very easy to clean and maintain.

The core of the Latham vinyl pool is a wall structure made of polymer, giving you the benefit of unsurpassed strength, corrosion-proof material, and a lifetime warranty. The result is that you receive a beautiful, easy to maintain pool that is the strongest on the market and will last a lifetime. Among the distinguishing advantages of vinyl pools, they not only look great, but they are treated with fungicides and UV-inhibitors to retain their visual appeal. We will be happy to discuss the many possibilities we can offer you.

PHTA Gold Standard Award Of Excellence - Vinyl

Why Choose a Latham Pool Builder?

The most important pool decision you will make isn't the shape, size or liner pattern. Without a doubt, nothing influences your satisfaction with your pool more than the builder you choose. Latham Pool Products has selected top builders from around the country. All Seasons is proud to be among these elite builders who have excellent reputations for building swimming pools of exceptional design and quality. When you select a Latham Pool Builder to create your Polymer Pool, you're getting the best of the best.

Inground Pools & Spas

Latham Pool Advantage

Polymer Wall Panels

Latham's Polymer straight panel is made from high impact, non-corrosive polystyrene resin. The top, bottom and side rails of the panel are 4" wide, and each panel is rigidized with vertical and horizontal ribs. The center vertical rib in the 6' panel allows for a wall/deck support every 3' feet. Latham Polymer Pools combine the rugged engineering of a molded box-flange panel with the benefits of completely non-corrosive Structural Polymer, which means you can install a Latham Pool where soil conditions prevent the use of conventional steel.

Heavy Duty Wall Brace System

The Latham heavy duty wall brace system is designed to hold the pool walls in place, giving maximum support. The convenient ground stakes secure the panels from any movement before the pouring of concrete. This guarantees a properly squared pool wall. The brace also allows for the attachment of our U-Tube, a concrete form which will help carry the deck load and add strength to the overall pool structure.

Photo showing the completely non-corrosive Structural Polymer pool panel and heavy duty wall brace

CONSTRUCTION

For peace of mind!

Resins are the material of choice for many high-performance applications. They are strong and rigid for use in aircraft such as the Stealth Bomber. They are light-weight and durable for use in protective helmets and pads used to protect your children in sporting events.

Wall panels and braces are made of an all-resin structural polymer that will never rust, oxidize, or degrade.

Steps, Ladders, & Benches

Thermoplastic Step Collection For Vinyl Liner Pools

Thermoplastic Pacific steps are molded from a solid sheet of coextruded Luran® S with an ABS substrate from BASF resulting in a strong, one-piece design that will never delaminate, splinter, corrode, or puncture. The raised, non-slip tread pattern allows for safe and easy pool entry and exit.

The high-impact strength and flexibility of weatherable polymers enables Latham Steps to withstand the stress of frost and back fill saturation far better than other materials.

Inground Pools and Spas

Vinyl Liner Options

Creating a backyard oasis that fits your personal style is always the first step. The pattern collections will allow you to create a unique look to your personalized vision. Vinyl is a luxurious pool surface. It's soft, smooth texture alleviates the rough effects of other surfaces and allows you to create a designer look for your backyard escape.

WHAT INSPIRES YOU?

LIGHT SERIES

Subtle and soothing tones hinting at the light blues of the Caribbean Islands? Select patterns from the lighter side of things.

RICH SERIES

Vibrant colors inspired by luxurious oceanfront lifestyles? A collection of patterns for seaside elegance at home.

DEEP SERIES

Bold and dramatic dark blues with striking patterns, similar to the serene beauty of a lakeside retreat? Select patterns of sophistication.

Spillover Spas

Acrylic/Fiberglass Spillover Spas

Spillover Spa with Surrounding Paver Brick

- Add a poolside spa to your poolscape to create a peaceful paradise. Color coordinate your spa to match your pool entryway and liner to achieve the perfect touch of harmony.
- Our in ground and spill-over spas are inherently rigid and strong, vacuum-formed from a single piece of acrylic, and then hand laid with fiberglass for structural support.
- We surround our spillover spas with paver brick and paver brick bullnose coping for a nice clean finished look.

Shotcrete Spillover Spas

Shotcrete Spillover Spas

If you're looking for the prestigious monolithic strength that is unsurpassed in concrete technology, then a shotcrete spa from All Seasons Pools, Spas & Outdoor Living is the spa for you.

Shotcrete spas are undoubtedly the most luxurious addition to a pool - the look and feel is simply exquisite. As is with a Shotcrete pool, a spa can come in any shape or size. Be it for looks or for health, a shotcrete spa is the perfect place to soak away the stress of everyday life and to accomplish this in a setting of serene elegance.

Portable Spas

Caldera & Northern Bay

The Best Hot Tubs Combine Comfort, Design and Performance

There are many hot tubs and spas in the market today. However, the closer you look, the easier it is to narrow your choice. If you want to transform tension into rejuvenation every time you step into your hot tub, look no further than Caldera Spas. All Caldera Spas are designed with their signature combination of Pure Comfort®, design, and performance to deliver optimal self-care and daily renewal.

Pool and Spa Pumps

IntelliFlo™ Variable Flow Pumps

This variable flow pump provides precise flow control, which means increased efficiency, savings and performance. The pump's innovative dual-technology design ensures the desired flow rate is maintained, no matter the conditions. Plus, the flow programmability pump helps the rest of your equipment perform exactly as it's meant to—from filters to laminars to waterfalls and more!

FEATURES:

- ENERGY STAR® Certified
- Cost savings that average up to \$1,500 annually
- Up to 90% energy savings compared to previous-technology pumps
- Near-silent operation-as low as 45 decibels
- Super-efficient permanent magnet motor – the same technology found in hybrid automobiles
- Rotatable keypad with optional wall mount kit
- Seamlessly interfaces with IntelliTouch® & EasyTouch® Pool and Spa Control Systems

90%
Energy Savings!

SuperMax™ Variable Speed Pump

SuperMax VS pumps slash energy costs by up to 80%*, compared to conventional pool pumps. With premium features like a 24-hour real-time clock and an intuitive interface that displays watts and RPMs, they're easy to program and operate. With the SuperMax VS pump, you can enjoy big savings on your utility bill.

Pool and Spa Filters

Clean & Clear Plus™ Cartridge Filter

Clean & Clear® Plus Filters have a corrosion resistant injection molded filter tank featuring superior strength and reliability. The cartridge assembly uses four easy to clean, non-woven, polyester cartridges.

Tagelus™ Sand Filter

Our unique, patented process creates a one-piece, fiberglass reinforced tank with superior strength and durability. Tagelus® Top Mount Filters are equipped with a six-position, clamp style, top mounted multi port valve.

Perflex™ Earth Filter

Perflex Extended-Cycle D.E. filters clean pools fast, removing particles as small as two microns the first time through. An exceptional value as a replacement filter or for new pool installations. For sparkling, clean pools, step up to Perflex.

MasterTemp®

MasterTemp™ Heaters

MasterTemp® offers all the efficiency, convenience and reliability features you want in a pool heater, plus a lot more. As easy to use as your home heating system, plus, user-friendly indicator lights make system operation and monitoring a snap. The compact design and super quiet operation won't intrude on your pool side leisure time.

- Because of its optimized fuel/air mixture, the MasterTemp is rated at a 84% efficiency rating, the highest in its class.
- Heavy-duty (HD) heaters with cupro-nickel exchanger stands up to the harshest of applications, like low pH, high flow or heavy use.

Pool & Spa Automation

EasyTouch® & Screenlogic®

The EasyTouch® Control System family offers a new level of control for homeowner's looking for an affordable, easy to use pool/spa control system.

EasyTouch allows full control of all pool/spa features including advanced options such as colored lighting and IntelliChlor® Salt Chlorine Generator support.

Every EasyTouch system includes an easy to use control panel that is built into the outdoor enclosure. This control panel allows for full system setup, programmability, and everyday operation. In addition, there are several other available remote interface choices as shown below.

Chemical Automation IntelliChem®

Keep Your Pool Water Perfectly Balanced With Hands-Free, Automated Ease

It can be a challenge to keep the pH and chlorine levels of your pool in constant balance rather than cycling up and down. The IntelliChem® chemical controller does it automatically by monitoring your pool's pH and sanitizer levels, and delivering just the right amount of chemicals. IntelliChem uses the same technology found in commercial installations, water parks, hotel and community pools. It can work independently, or together with Pentair automation products - so you can check your water chemistry at a glance.

- Programmable chemical feed cycle and mix times for precise water balance
- Assures safe water conditions by preventing excess chemical addition

Salt Sanitizing Systems

Salt Chlorine Generation

Salt chlorine generation uses common table salt to produce all the chlorine a pool needs, safely, effectively, and automatically. Same sanitation performance as manual chlorine addition without the drawbacks. These cells produce a steady stream of pure chlorine for softer, silkier pool water. It's the easiest and most effective way to maintain a sparkling clean pool.

-  Reduces chlorine output when the pool is closed
-  Prevents the generation of chlorine when the pump is not activated
-  No more buying, carrying, storing or handling chlorine
-  Once the chlorine has finished purifying the pool of contaminants, it reverts back into dissolved salt and the cycle repeats

Poolife NST Skimmer Tablets

NST tablets help you ensure that your pool's beauty is easily maintained. These products are designed to effectively guard against bacteria, algae and other contaminants and are available in tablet and granular forms. Each tablet provides steady chlorination and will not cause overstabilization - even with prolonged use.

Pool Cleaners

Robotic

Pentair® Prowler 920™

The Pentair Prowler 920 Robotic Pool Cleaner offers a superior level of cleaning, scrubbing and vacuuming all the way to the tile line. With two brushes, including one active brush that spins at two times the speed of the tracks, a single LED light and the ability to customize the filtration level, the Pentair Prowler 920 provides effortlessly simple operation. Just plug it in, place it in the pool and go about your day.

Key Features of the Prowler 920:

- All-surface deep cleaning with a powerful, high-speed scrubbing brush
- Fast and easy debris removal with a top access filtration basket
- Select from a large or fine debris filtration cartridges
- Programmable daily cleaning schedules with a built-in weekly timer

Maytronics® Dolphin M400™

The Dolphin M400 is a deluxe level model that cleans the floor, walls and waterline for pools up to 50 feet in length. The Dolphin M400 raises the bar for robotic pool cleaners, representing the latest generation of dolphin technology. With unique features like a 3rd underside scrubbing brush and a patented swivel cable, the M400 has gone above and beyond with the ultimate cleaning technology of a robotic pool cleaner.

Key Features of the Dolphin M400:

- Patented swivel cable helps prevent tangling
- Scrubs, vacuums and filters the pool with a cycle time of 2.5 hours.
- Incredibly efficient - costs less than 15 cents to clean the pool.
- Plug-n-play! No pre-installation needed, no connections to pool system.
- Self-programming for optimal pool scanning

Automatic Pool Cleaners In Floor Cleaning Systems

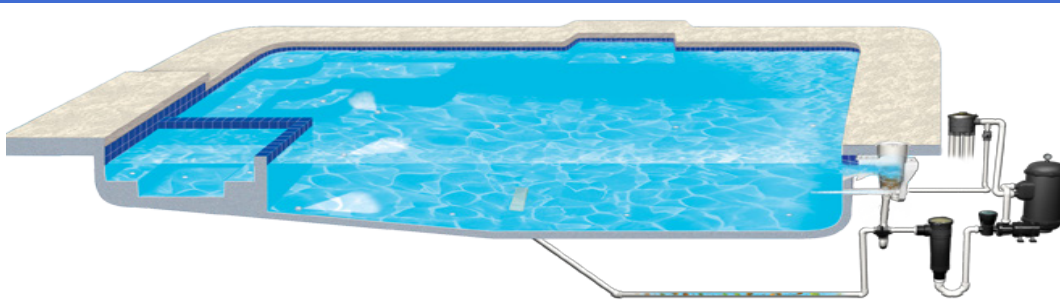

Automatic, Silent, Systematic, Programmed Cleaning

For some people, the work involved in pool maintenance is all that stands between them and their dream pool. All Seasons' state-of-the-art pool cleaning, debris removal and circulation system is powered by amazing technology. This amazing and virtually invisible cleaning system always keeps your pool healthy, sparkling clean and swim-ready.

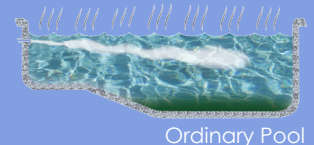

DETAILS THAT MATTER

- Built into the floor and walls of your pool during construction
- Pop-up nozzles located throughout the pool bottom shoot streams of water that push debris to the drain area
- Main Drain Debris Removal System uses an efficient pump system to transfer waste from the main drain to an easy-to-clean canister at deck level
- Superior efficiency in water circulation saves you money on chemical & energy costs
- Custom-designed for your pool

CIRCULATION BENEFITS

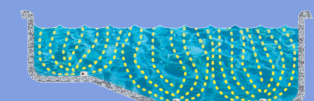

- Enjoy cleaner, healthier water
- No poorly-circulated algae-prone areas
- Eliminates cold spots for more comfortable swimming
- Saves on chemicals during the entire life of the pool
- Saves energy costs for the entire life of the pool
- Better for the environment
 - Independently proven to save you money for the life of your pool

Ordinary Pool

Saves heat and energy

Saves chemicals

Pool & Spa Lighting

White Lights

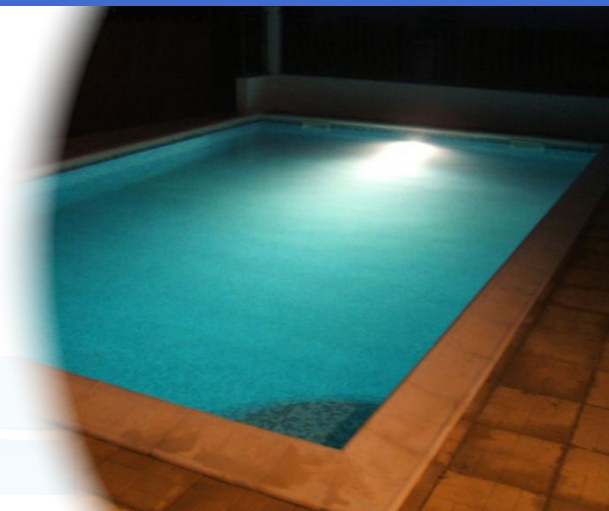

Amerlite™ Incandescent White Light

Incandescent lights have been the world standard of reliability for underwater pool and spa lighting for decades. In fact, tonight they will light more than 3 million pools around the world.

IntelliBrite 5g™ LED White Light

The IntelliBrite 5g White underwater LED light is not only brighter than incandescent lights, it's the brightest on the market.

 The IntelliBrite 5g light uses only 70 watts to create the same light output as a 500 watt incandescent light bulb. That's 86% less energy used!

LED Light Upgrade Options

IntelliBrite 5g™ LED Light

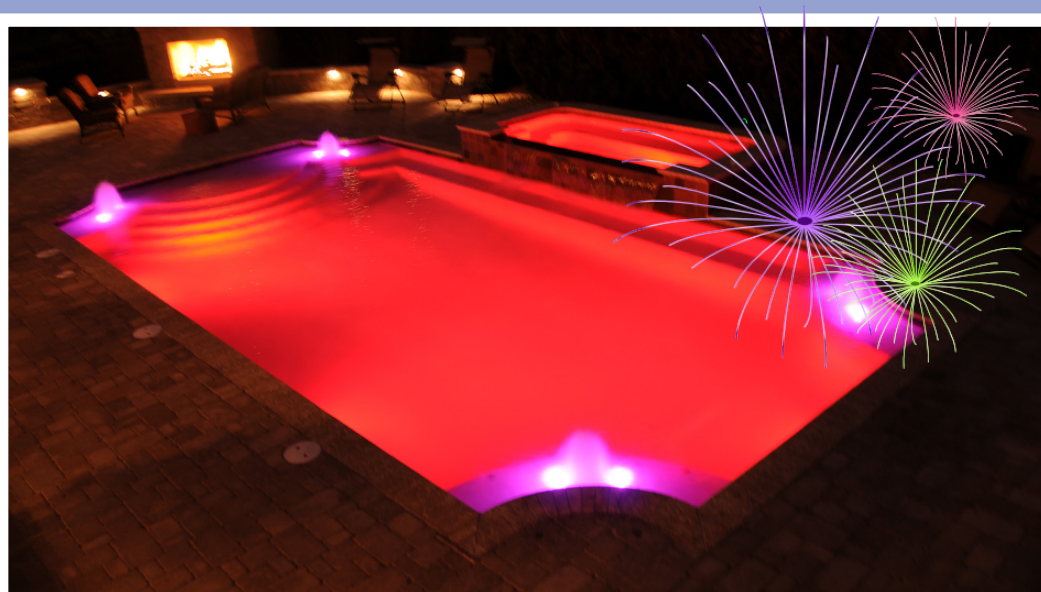

IntelliBrite® 5g automated color-changing pool and spa lights feature LED technology, the wave of the future in energy efficiency, lifetime value, quality of light, and controllability.

With IntelliBrite 5g, combinations of individual colored LEDs are mixed and matched to achieve a vibrant spectrum of colors. These combinations are power sequenced to illuminate and cycle through colors at varying speeds, and in different sequences of color.

MicroBrite LED Lights

Are you looking to update your old fiber optic lights that are just not as bright as they used to be. Give your pool the ultimate lighting upgrade it deserves!

MicroBrite® Color and White LED Lights provide exceptional brilliance, lighting uniformity and amazing colors. For new pool and spa designs, their compact size delivers the freedom to add dynamic lighting in places never before possible. Let your imagination take you to brighter places!

Pool Covers

Winter Safety Covers

Mesh Safety Covers

Mesh winter covers provide excellent winter protection and are perfect if you live in an area that receives heavy snow fall during winter months. Mesh covers are great that melting snow, melting ice, and rain will drip through the cover into the pool, preventing a buildup of water on top of the cover.

PROTECT WHAT YOU LOVE

Automatic Safety Covers

Automatic Covers Save You Money

By saving heat, chemicals, cleaning and extending equipment life, your Coverstar® cover quickly pays for itself. You can save up to 70% on operating costs—a great return on your investment.

Energy and heating costs

The Eclipse™ Cover acts as a passive solar heater by capturing the sun's radiant heat. It reduces heat evaporation, keeping the pool warm when the air temperature cools off at night. This dramatically cuts down on heating costs while extending your swimming season.

Water and chemicals

By reducing evaporation, your Eclipse™ pool cover cuts water loss and reduces the use of chemicals. On indoor pools, your cover prevents evaporation, and in most cases, can eliminate the need for expensive dehumidification systems.

Cleaning and maintenance

Keep dirt, leaves and debris out by simply keeping your pool covered. The Eclipse™ pool cover reduces maintenance costs and keeps your pool cleaner.

Pool equipment and pool life

With the heat kept in, and with dirt and debris kept out, your pool equipment works less and lasts longer.

Why Coverstar®

Reliable Mechanism

Ultra strong stainless steel bracket components make COVERSTAR the most durable and reliable automatic safety cover on the market. Nothing stands up better in the harsh, corrosive pool environment. That's why COVERSTAR mechanism warranties are among the best in the industry.

Sealed Motor

The motor's hardened stainless steel shaft and oil bathed gears eliminate motor problems. It is sealed against water by the original motor manufacturer. The motor can operate even when completely submerged if the housing is temporarily flooded. Other, less-reliable means of motor protection could mean an expensive motor repair.

Adjustable Torque Limiter

A mechanical torque limiter protects the motorized mechanism from too much stress. Other automatic covers often use an electronic torque limiter that can fail in the harsh pool environment.

High Tech PowerFlex Ropes

PowerFlex Ropes behave like a shock absorber that allows it to be more forgiving and self adjusting during operation. It also resists distortion that is common with autocover ropes, making it easier to install and operate with fewer adjustments.

Navy, Royal, Light Blue, Green, Tan, Brown, Gray, Charcoal, Black

Peace Of Mind

A safety pool cover offers numerous benefits for swimming pool owners, but the benefit that trumps them all is that they prevent drowning.

As a safety device, the cover acts as a horizontal fence, completely sealing off the pool and preventing accidental access to the pool water by children, pets, and uninvited visitors.

And while there's no substitute for proper supervision, your pool can be protected even when you're not around. It's the ultimate safety barrier that no pool should be without.

Poolside Fun

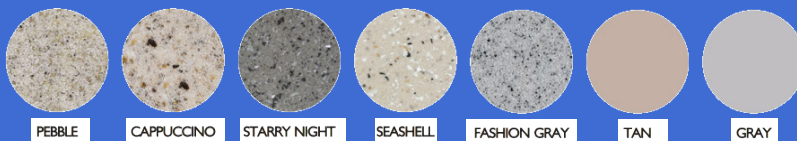

Diving Boards

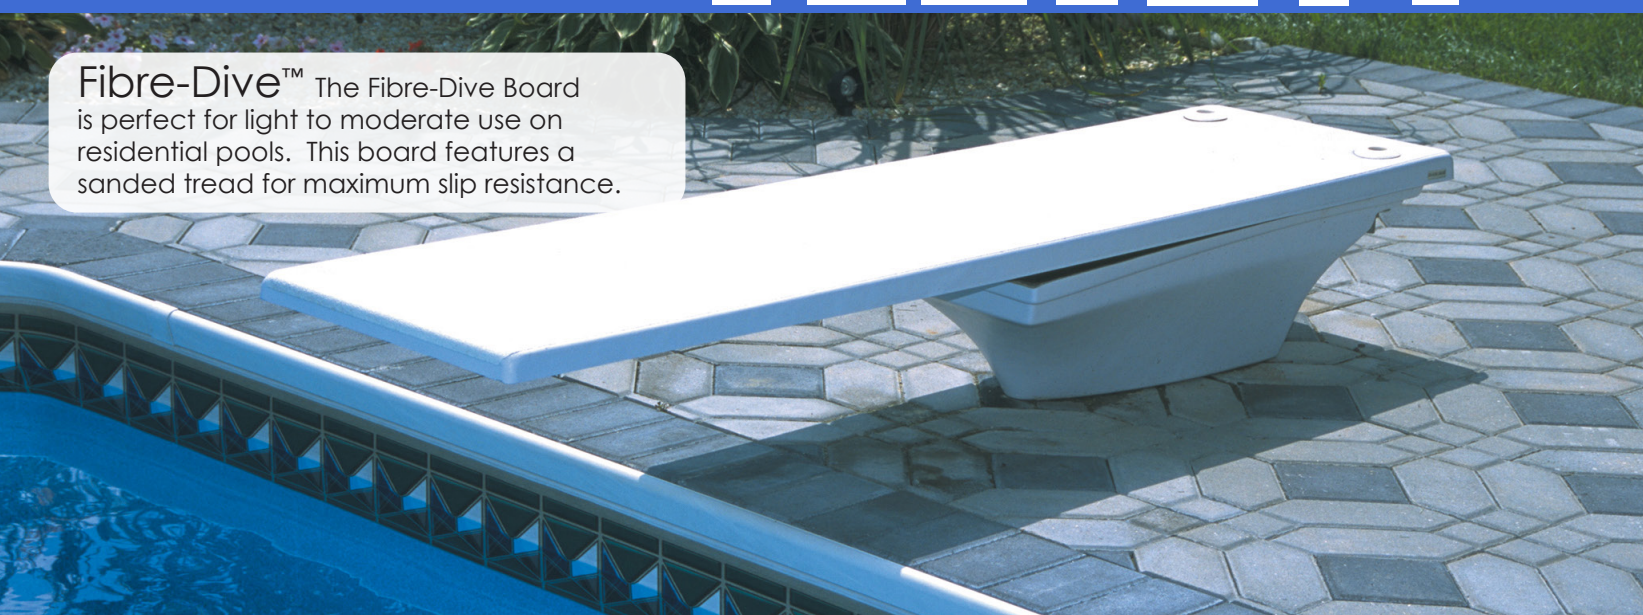

Bring more style to your swimming pool with the innovative T7™ Diving System. Add the sights and sounds of a pool-side waterfall with a Board Fall waterfall option! The T7 diving board and base are available in unique colors and visual textures and can be color matched with the Destination Series In-Pool Furniture and Landscape Slides.

T7 Board Colors

Fibre-Dive™ The Fibre-Dive Board is perfect for light to moderate use on residential pools. This board features a sanded tread for maximum slip resistance.

Fibre Dive Board Colors

ULTIMATE FUN!

BigRide™

The BigRide swimming pool slide adds big fun to your pool with a super long, extra deep runway and cascades of rushing water for the ride of your life!

The BigRide is the answer to your need for a really fun pool slide that also looks great in your backyard. When you won't settle for less than the best of both worlds - lots of fun and good looks - the BigRide is the ultimate slide!

Poolside Fun

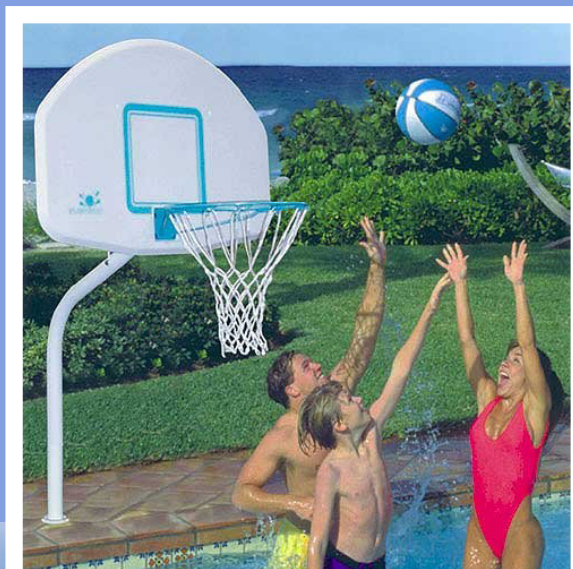

Basketball & Volleyball

Basketball Volleyball Combo

Regulation size Pool Basketball set includes special color matched ball and notched powder coated aluminum post with finishing ring. Special anchor comes with finishing cap to replace post when not in use. All hardware is stainless steel. Regulation size Pool Volleyball set includes 1 1/2" dia. powder coated aluminum post, 24' net with shortening kit, adjustable height net clamps and hot colored ball. Games share 2 anchors to combine DeckVolly and DeckShoot sets. (Games cannot be played at same time).

Swim-N-Dunk Basketball Game

The Swim N' Dunk Residential Challenge Salt Friendly Dual Post Basketball Game features a SealedSteel coated, one-piece upright frame and rim. The continuous uprights require less hardware and allow for quicker assembly, while the SealedSteel Salt Friendly coating will stand up to harsh pool environments. The game can be removed from anchors for seasonal storage, and the optional anchor caps put in place.

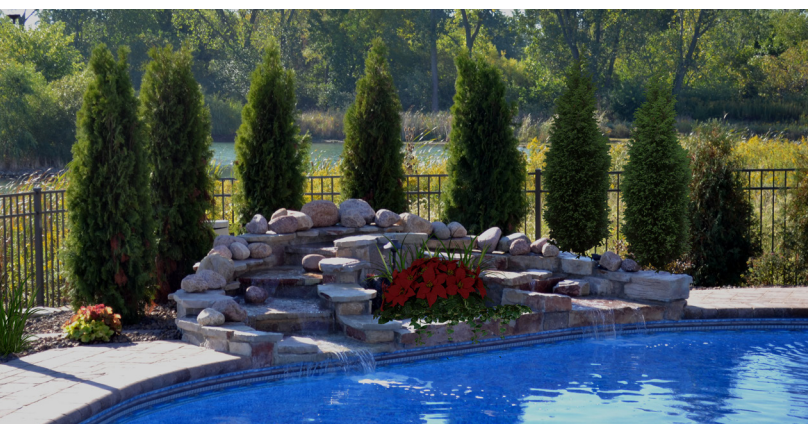

Water Features

Enjoy the Beauty of our Unique Designs

Custom Natural Stone Waterfall

We specialize in Custom Water Feature Designs and Accents. Using only the best components from leading manufacturers, our design specialists can create features from raging waterfalls with dramatic caves to babbling brooks with gentle cascades of water. With the addition of custom colored lighting, creatures and fog effects, our water features really come to life.

Deck Jets

Perhaps nothing else soothes the soul like the sight and sound of moving water. With Deck Jets, you can add to the peaceful tranquility of your poolside experience a number of ways... more economically than ever before.

Laminar Jets

Laminar Jets create totally clear, uniform arcs of moving water that originate from either your pool deck or surrounding landscape. At night, these translucent streams are brilliantly colored with an LED light source.

Water Features

Escape to your Ultimate Pool

LED Lighted Bubbler

Whether you're in the mood to relax or entertain, ColorVision bubblers are the perfect way to showcase and enhance pool features like sun shelves, steps and beach entries. You'll be amazed as your pool comes to life with vivid color-changing LED lighting and fountain-like water movement.

Splash Pad

A backyard splash pad is a great complement for existing pools. A unique add-on for new pool construction, or it can be installed as a stand-alone, play-in water feature.

Beauty as day turns to night

Pavers

Origins® Paver

Maximum efficiency meets dazzling design. Origins emulates the look and texture of natural stone with the convenience of modular sizing. Three shapes allow for a wide variety of design options, giving homeowners the ability to create eye-catching patios, walkways and more, with a natural slate appearance.

Color Selection

Ashbury Haze Cotswold Mist Danville Beige

Urbana Stone® Paver

Urbana® Stone's chiseled textures and contours combine with its random shapes and patterns to recall the look and feel of vintage cut stone. Urbana is offered in a versatile, three-piece modular system with an optional large square that adds a broader range of shapes and an even grander scale.

Color Selection

Ashbury Haze Cotswold Mist

Blu® Paver Slab

The best-selling Blu slate patio slab was inspired by natural slate stone. This traditional patio stone comes in multiple sizes for your backyard pool decks, patios & walkways. The same lines and rugged texture as our thicker Blu paver, the same opulent colors and traditional look, Blu 60 Slate slab is the choice for pedestrian areas such as on walkways and patios.

Color Selection

Champlain Grey Chestnut Brown Chocolate Brown Harvest Gold Onyx Black Sandlewood Shale Grey

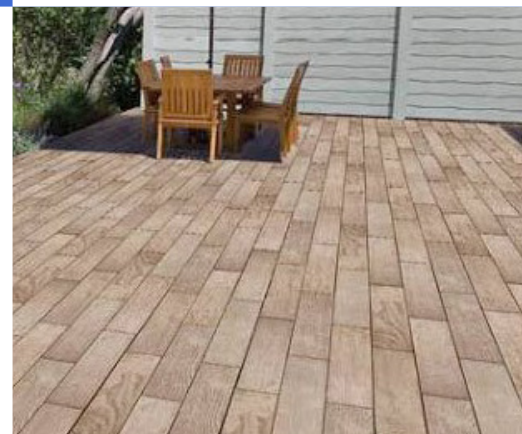

Borealis® Paver Slab

The look of hardwood flooring is now available outdoors with this wood look-a-like patio slab made of concrete. It will have you guessing whether it's hardwood or concrete. Borealis looks and feels like wood planks, is offered in three alluring colors and most importantly, it's maintenance-free. That means no deck staining, wood-treating or wood-rotting, ever.

Color Selection

Smoked Pine Hazelnut Riviera

Concrete Options

Broom Finished Concrete

Standard concrete, broom finished, with controlled expansion joints to add style.

Dyed Concrete

Combining the stability of concrete with the enticing colors of stone and brick, dyed concrete offers beautiful alternatives for homeowners. Many different colors to choose from.

Stamped Concrete

Also known as patterned concrete and is designed to resemble brick, slate, or tile on the pool deck surface.

Paver Brick Coping

The smooth surface of the bullnose paver offers many opportunities that are only limited by your imagination. Whether you are looking for something to surround your pool or searching for a unique step application, Belgard's bullnose paver is the answer.

Give your pool the natural warm look of Weston Wall Cap style brick coping. Brick coping works hand-in-hand to create a stunning and inviting centerpiece to your backyard landscape.

Limestone / Bluestone Coping

Available in both a square finish and bull nose finish and can be manufactured in custom sizes for unique applications.

White Aluminum Coping

All coping is made from heavy-duty, electro statically coated aluminum extrusion. Can be bent for custom shaped vinyl liner pools!

Travertine Coping

Travertine is one of the most frequently used stones that you might see today in modern landscaping. Travertine is a natural stone tile.

Retaining & Sitting Walls

BelAir Wall 2.0®

Belair Wall® 2.0 is ideal for retaining and freestanding wall construction where aesthetics are a key consideration. The attractive multi-piece design and blended colors offer an alternative look to traditional retaining wall blocks. Belair Wall 2.0 can be used in curves and corners, terraces and raised patios, or steps and columns.

Color Selection

Cotswold Mist

Gascony Tan

Weston Stone®

A versatile system. Weston Stone Wall's flexibility is unmatched. Its natural stone appearance allows for a wide range of applications and design options. This double-sided wall is the ideal choice for garden walls, pillars, outdoor kitchens and planters.

Color Selection

Ashbury Haze

Cotswold Mist

Danville Beige

Indulge yourself with a Personal Oasis

At All Seasons Pools, Spas & Outdoor Living, our goal is to make sure that your house is always the center of your social network. Whether it's creating a way to cook and eat outside or creating a fire feature to have a comforting place to warm you in that cool night air, adding an outdoor cooking center, living room, or fire pit is the perfect way to finish off your backyard paradise.

Custom Outdoor Kitchens

Outdoor cooking centers offer convenience, flavor and appeal. Our custom outdoor kitchens complete your outdoor living space by bringing the kitchen to the pool. Finished with materials to accent your pool and match your home, these centers are built around you and for you. By including everything from refrigerators and wine chillers to searing burners and more, All Seasons will provide all that you need to prepare that gourmet meal for your family and friends.

Available Options

- Natural stone veneer or paver brick construction
- Granite or travertine counter tops
- Warming Drawer
- LED accent lighting
- Stainless steel cabinets and drawers
- A variety of different size grills available
- Refrigerators
- Umbrellas
- Custom taps to serve beer or juice
- Chicago Brick Ovens

Indulge yourself with a Personal Oasis

Custom Fire Pits & Fireplaces

Our fire features offer a romantic evening accent and a comforting place to warm you in the cool night air. Pour a glass of wine and snuggle up to a warming outdoor fireplace or grab some marshmallows and toast them with the kids next to an All Seasons created custom fire pit. We can combine water elements with our fire features as well, to create soothing sounds of bubbling brooks with the hypnotic effect of the dancing flames.

Available Options

- Wood burning or natural gas
- Surrounding sitting walls
- Wireless ignition or manual-lit
- Vented or vent free fireplace
- LED accent lighting
- Paver brick or natural veneer construction

Outdoor Living

Indulge yourself with a Personal Oasis

Custom Built Outdoor Living Rooms & Pergolas

Traditionally, the favorite hangouts in the home have been the kitchen and family room. But today, the backyard is taking over as the favorite gathering space for cooking, entertaining and relaxation. More homeowners are bringing all the comforts of their indoor rooms to the outside by creating multipurpose outdoor living spaces that function as inviting extensions of their home.

Available Options

- Cedar and composite pergolas
- Custom waterfalls raining into your pool
- Ceiling fans
- Televisions
- Fireplaces
- And much more. All rooms are 100% custom to fit your needs

Outdoor Lighting

LED Landscape Lighting

Today's homeowners see their landscapes as a source of pride, a refuge for relaxation, and a place to enjoy good times with family and friends. Our lighting brings these spaces to life after the sun goes down, providing an unmatched aesthetic effect while adding safety and usability.

LED Landscape Lighting Advantages

- LED landscape lighting can save up to 80% in outdoor lighting energy costs, saving you \$100s per year.
- LED Lamp replacement is almost nonexistent. This reduces the lighting maintenance costs to almost zero. LED landscape lamps last up to 40,000 hours (that's 21 years at 5 hours per day). WOW!
- LED outdoor lighting is the cutting edge lighting technology. Why install an outdoor lighting system that utilizes old inefficient technology?
- LED outdoor lighting is the safest form of lighting. LED landscape lighting produces very little heat compared to halogen landscape lights. The landscape fixture is only slightly warm to the touch where as halogen 12 volt landscape lights can cause burns to people, pets or plants.
- LED lamps are able to withstand bumps and knocks. Unlike incandescent lamps, LED bulbs don't have delicate filaments which can be damaged due to movement of fixture during maintenance or rough gardeners.

Mosquito Control

Help Protect The Ones That Matter Most!

MOSQUITO CONTROL

**NO BUGS. NO BITES.
MORE FUN!**

Reclaim Your Backyard

All Seasons has the answer for the best mosquito control for your backyard or outdoor living space. Mosquitoes ruining your outside time are annoying and even worse, they can carry diseases. We can help by using a mosquito control treatment that will allow you to use your yard bug-free.

We target the area around your home and the plants in your yard. Our process requires the mosquitoes to come in contact with the solution that we spray, so we focus on the areas that they like to hang out.

Features & Benefits

- Protect children and pets from mosquito-borne disease
- Available maintenance programs with our licensed technicians will apply our mosquito and tick control products on 21 day cycles in each of our bundles, ensuring your family and pets have the ultimate control for a bug free yard!
- We're so confident in this service, if you're not happy with your treatment, we'll re-apply at no additional costs to you!

From a one-time spray to every 3 weeks throughout the season, we are here to keep your family safe in your backyard all summer long!

Swimming Pool Services

Scheduled Maintenance Services

As Chicagoland's preferred pool and spa service center, our customers turn to us for their routine pool & spa cleaning, water testing and maintenance needs. Spend your free time enjoying your pool, not maintaining it. Our highly trained maintenance technicians will see that your pool is always ready for you!

We provide a variety of maintenance packages for inground pools and spas to fit every need. Indoor or outdoor, once a week to once a month, we have a program that's perfect for you.

On every maintenance visit, using the most advanced technology available, our technicians perform computerized analysis of your water right in your own backyard, emailing you the results before they leave your home, keeping you as informed as you can be about what is done at each visit! Historical records of each test are stored for future comparisons and can be accessed by our employees in the field or at our retail store.

With this information, we'll make precise adjustments to the water chemistry, helping you to ensure the perfect swimming environment. We'll also clean your pump and skimmer baskets, clean your filter and empty automatic cleaning equipment bags and screens. Before we leave we'll even inspect your equipment to help make sure everything is functioning properly.

Other services that are available include waterline and tile brushing, vacuuming and surface skimming.

All Seasons can do as much or as little of the routine maintenance as you feel necessary, so you can spend more time enjoying your backyard!

Swimming Pool & Spa Repair Services

At All Seasons Pools, Spas & Outdoor Living, we have an exemplary PHTA certified in-house Repair Department that boasts over 200 years of combined experience. All Seasons is a factory authorized warranty station that allows us to SERVICE WHAT WE SELL.

Seasonal Opening & Closing Services

Proper seasonal openings and closings are crucial to the longevity of your pool and spa equipment as well as the pool surface. Our expert technicians will start your season off right with a professional opening. Once the winter chill heads towards the Chicagoland area, there's no better choice than to choose All Seasons for your pool's winterizing needs.

Certifications

When you choose All Seasons, you are choosing unmatched professionalism, quality and knowledge.

The Pool & Hot Tub Alliance Professionals

PHTA Certifications: Certified Building Professional, Certified Service Professional, Certified Pool Operator, Certified Service Technician, Certified Maintenance Specialist & Certified Hot Tub Technician.

The Pool & Hot Tub Alliance (PHTA) is the world's oldest and largest association representing swimming pool, spa, and hot tub manufacturers, manufacturers' agents, builders, designers, distributors, suppliers, installers, retailers, and service technicians. Dedicated to the growth and development of its members' businesses and to promoting the enjoyment and safety of pools and spas, PHTA offers a range of services, from professional development to advancing key legislation and regulation at all levels, to consumer outreach and public safety. PHTA is the only industry organization recognized by the American National Standards Institute to develop and promote national standards for pools, hot tubs, and spas.

Genesis 3 Design Group
