LOOP-LOC SAFETY POOL COVERS 2022

#Ask

Elephant

MADE IN THE USA

Manual Safety Cover
In accordance with ASTM
Standard F 1346-91

Protect your family with the only mesh pool cover that passed the elephant test: ***"The Elephant™ Cover"***

-  LOOP-LOC® puts an unbreakable "lock" on your pool to protect your family. Only LOOP-LOC is available with the patented CABLE-LOC™ and GAPGUARD® Child Safety Intrusion Barriers. They close the dangerous gaps created where raised obstructions meet the cover's edge, so there's no way a child or pet can slip through.
-  LOOP-LOC's exclusive Computer-Aided Design ensures a perfect, custom fit for any shape or size pool: from a simple square to the most complex installation, LOOP-LOC can manufacture a custom cover with the perfect fit for any pool or spa.
-  LOOP-LOC always stays tight, clean and beautiful on your pool – unlike a saggy, unsightly waterbag cover that becomes a dangerous, slippery swamp after just a few rains, LOOP-LOC's super dense mesh allows rain to drain through. The cover stays dry and beautiful in any weather!
-  By following LOOP-LOC's simple care and maintenance instructions for your mesh or solid cover, you'll be able to open your pool with minimal cleaning and keep your cover in the best shape, year after year!
-  Unlike solid waterbag covers, a LOOP-LOC requires no pumping, scrubbing or heavy maintenance. Plus, it's easy to install and remove with LOOP-LOC's unique anchoring system.

BEFORE

This solid waterbag cover is a slimy, unsafe mess after just a few rains.

AFTER

A LOOP-LOC safety swimming pool cover stays beautifully dry and safe in any weather.

Super dense mesh available in green or designer Black, Gray, Tan or Blue to complement your outdoor decor.

"The Elephant Test"

#AskForTheElephant

You'll probably never need a pool cover safe and strong enough to support the weight of "Bubbles," the African elephant (seen on the cover). But imagine how safe you'll feel owning the only pool cover that's proven it can: the LOOP-LOC® Safety Swimming Pool Cover.

Blocks virtually all sunlight

Lets rain and melting snow easily drain through

**BLACK SUPER
DENSE MESH**

**BLUE SUPER
DENSE MESH**

**GRAY SUPER
DENSE MESH**

**TAN SUPER
DENSE MESH**

There's only one *Loop-Loc*®

Here are 15 reasons why.

A LOOP-LOC cover is the only safety cover to be awarded UL certification year after year.

Mesh construction lets rain and melting snow drain right through.

LOOP-LOC is so durable, it's backed by a 15-year prorated warranty and so safe, it may reduce your liability insurance.

LOOP-LOC is so lightweight, putting it on and taking it off your pool is a snap.

LOOP-LOC blends beautifully into any backyard, with your choice of standard Spring Green or four optional designer colors.

LOOP-LOC's patented CABLE-LOC™ and GAPGUARD® Child Safety Intrusion Barriers close the gap created when a pool includes raised obstructions located at the cover's edge.

The polyester bonded thread used in LOOP-LOC covers is 30% stronger in thread size and produces a higher margin of safety in all seams (compared to our competitors).

Double-perimeter webbing and double thick straps give our covers an incredibly high break strength.

We use extremely high-strength, non-corrosive 302/304 grade stainless steel springs for superior weight-bearing capacity.

Unique brass anchors recess flush with the deck when the cover is removed.

We sew the webbing to the cover using contrasting white thread, instead of black, to ensure that not a single stitch is missed.

We use 80% black yarn in our fabric for superior UV stability.

Chafe strips are manufactured with exclusively virgin material – not "regrind," which tends to stain decking.

Non-corrosive aluminum tips are double-notched for stability.

The large X-tacking on LOOP-LOC straps is sewn manually for precise placement and maximum strength.

AQUA-XTREME® VIRTUALLY SOLID MESH

Maximum light blocking, lightning-quick drainage,
ultimate convenience!

Imagine opening your pool in the spring and having it look almost as clean as the day you closed it. That's what you can expect from Aqua-Xtreme "Virtually Solid" mesh safety covers by LOOP-LOC®. Our ultimate light blocking fabric not only deters algae growth but drains lightning-quick. Unlike other light blocking covers, this one drains up to 80 gallons per minute without clogging. Plus, the unique, new weave is super strong to give you complete peace of mind. Available in popular Hunter Green, Sapphire Navy, Mojave Brown and Steel Gray.

Our *ULTRA-LOC III* Solid Safety Pool Covers Feature:

-  Premium coated vinyl material with enhanced 100% polyester rip-stop scrim.
-  Super-strong, durable material.
-  Fast, easy draining with optional mesh drainage panels.
-  Unlike traditional solid water bag covers, there is no scrubbing or maintenance required.
-  Fits any pool or spa perfectly, from a simple square to a complex installation with a custom cover.
-  LOOP-LOC covers not only meet, but exceed, ASTM standards for Safety Swimming Pool Covers F 1346-91.

Commercial Covers

Loop-Loc® keeps your facility safe and saves you money.

In the off-season, an empty, unsupervised commercial pool can be an invitation for disaster. Locked gates or fences alone have often proved ineffective in preventing children and pets from gaining access to the pool area.

AQUA-LOC®

The zipped-up solution for obstructions and oversized pools.

Large commercial pools and pools with rails and other non-removable raised obstructions have always posed challenges for safety swimming pool cover installation. LOOP-LOC's patented AQUA-LOC treatment is easy to install, easy to use, and greatly reduces the need for strap-and-buckle treatments. Meets all ASTM standards for safety covers.

1. YKK industrial zipper secures cover sections
2. Black urethane UV coating protects zipper
3. Stainless steel block prevents zipper from being opened
4. Key-lockable cable secures block in place
